

ICMR- NATIONAL INSTITUTE FOR CANCER PREVENTION AND RESEARCH
(Indian Council of Medical Research)
I-7, Sector 39, Noida (U.P) –201301

Expression of Interest

National Institute of Cancer Prevention and Research (NICPR) is providing cancer screening services for common cancers (cervical, breast and oral cancer). As a part of breast cancer screening, there is requirement for the following diagnostic imaging for patients.

1. Mammography (Bilateral)
2. Sono-mammography
3. Ultrasound of breast (Bilateral)
4. Ultrasound pelvis.

Since these above-mentioned facilities are not available in our institute, we are referring our patients to other centres. If any private scan centres are interested in collaborating with us for providing the services to the patients referred by NICPR, please send the quotations for the above mentioned procedures to the address given below.

Prerequisites for applying:

- The diagnostic centre should be within 5 kms radius from NICPR
- The tests should be done on the same day the patient approaches the diagnostic centre
- The digital films of mammography should be provided to the patient/NICPR

Points to keep in mind before submitting their rates:

1. Our institute is a Government organisation and providing the service free of cost to the community, hence the charges to the patient must be the bare minimum.
2. The cash payment for any of the above procedure if done will be paid by the patient directly to the scan centre at the time of the procedure.
3. NICPR does not hold any responsibility for the payments for the services.
4. Last date for receipt of sealed proposal is 20.10.2018 (by hand)
